Standard One 

A CYBER ATTACK IS REPORTED EVERY 6 MINUTES AROUND THE GLOBE!

Organisations report an attack every **6** minutes all over the world ranging from simple bot attacks to complicated chained ones with the **MAIN** weakness being due to people or compliance. **Are you protected?**

WE OFFER GUARANTEED RESULTS.

Compliance Readiness: comprehensive service designed to assist businesses in successfully preparing for and obtaining security and privacy certifications, ensuring they meet the highest standards of security and data protection.

Virtual CISO: provide expert cybersecurity guidance for your organization without the need for a full-time, in-house CISO.

Endpoint Security: implementation and management of end point solution such as SentinelOne.

Cyber security Assessments: Provides valuable insights into the status of your security and control posture through comprehensive reviews, diagnostics, and audits of your data protection, information security, critical infrastructure, and technology systems.

We were founded by a partnership of Senior Telecom, Cybersecurity and Audit Experts with decades of experience working for large and global organisations
